| Overview | Consultant Orthopaedic Surgeon with a special interest in disorders of the Foot & Ankle. |
| Sub-specialities | I am a fellowship trained foot and ankle surgeon with experience in treating forefoot, midfoot and hindfoot pathology including degenerative, congenital, neuromuscular and trauma-related foot and ankle problems. In addition I deal with general orthopaedic trauma patients. |
| Qualifications | BMedSc(Hons) (Nottingham 1994) BM BS (Nottingham, 1999) FRCS (Edinburgh 2009) |
| Publications | Research articles on variety of subjects including gait analysis, trauma topics and ultrasound diagnosis in foot and ankle pathology. Author of several review articles in peer-review journals. Several national and international presentations on variety of general orthopaedic and foot and ankle topics. |
| Career history | I was appointed Consultant Orthopaedic Surgeon at COCH in April 2013. Prior to this I was Locum Consultant Foot & Ankle Surgeon at the Robert Jones & Agnes Hunt Hospital, Oswestry. I completed my higher surgical training the South West Region (Devon and Cornwall) and completed post FRCS fellowships at the Cappagh National Orthopaedic Hospital, Dublin and the Nuffield Orthopaedic Centre, Oxford. During my HST I also benefited from an AO Foundation Trauma Fellowship at Mainz University Hospital, Germany. My basic surgical training was completed in Bristol and Somerset after graduating from Nottingham University Medical School. |
